

King's College London

Applied Neuroscience MSc

Online study | MSc and PG Dip routes

PROGRAMME OVERVIEW

An interdisciplinary introduction to the brain, behaviour and society, drawing on the Institute of Psychiatry, Psychology & Neuroscience. Explore how neuroscience informs health, research and real-world applications.

STUDY AREAS

- Foundations of neuroscience and psychology
- Neuroscience techniques and research approaches
- Brain, behaviour and mental health
- Research training and applications of neuroscience

ENTRY & STUDY ARRANGEMENTS

The official course page presents separate MSc and PG Dip qualification routes. Confirm the intended award, entry requirements, English proficiency and study arrangements for the route you apply to.

This course does not itself confer clinical practice registration. Check professional and registration requirements separately with the relevant authority.

FEES & NEXT STEPS

Ask UKEC to confirm current tuition, currency, payment stages, additional costs and intake dates in writing. Admission is decided by the university.
